Saying a Temporary "Goodby" to our early ministry pastor and friend, Dr. James Hollingsworth.

Godfather to our children, mentor, encourager, and the greatest soul-winner I have ever worked alongside. "Preacher" will be dearly missed.

Laying the Cornerstone

- Recently I was asked to lay this cornerstone for a new group of believers. They have already built and laid all the brick for their worship center from their own resources. American donors are supplying the metal roof.

April Conference - Marriage, The Way God Intended

Couples gathered in the western region of Ivory Coast to hear essential teachings from God's Word as Pastor David and Tami Kennedy taught "God's design in

marriage." Understanding the Biblical plan is crucial for success in healthy relationships. And it is especially important for pastors to understand how to teach these principles to church members. Mission pastors and workers, along with their wives, gleaned from this in-depth study, encouraging men and women to fulfill their God-ordained roles. HIS intended plan works as nothing else can. Healthy, wholesome relationships produce harmony in the home.

Jungle Riders Reaching Remote villages With The Gospel

The "Jungle Riders" team is growing. We are now developing two groups numbering around six men per group. Their outreach this year is in remote villages, primarily among the Beté and Yacouba tribes. These dedicated men need your financial support to reach their goal of sharing the Jesus Film in 100 villages over the next few months. A team of pastors from our Bible Institute will take on the task of follow-up among new believers. Please give generously to support "Jungle Riders." We cannot accomplish this without your financial help. Many souls are being reached through this program.
